

Joy Of Joys! Aguacates Are Again In The Market For The Salad Lover

Watermelons Plentiful, but Cucumbers Are No More—Hay Rises, Bran Drops.

THE opening up of the Mexico National railroad has brought a good supply of Mexican aguacates and green chili to the local markets. A good supply of watermelons, well calculated to gladden the hearts of El Pasoans, has also been received. The quoted price, retail, is 1 1/2c per pound. Large shipments of valley peaches have brought the price down from 15c per pound to 10c per pound. The prices on the California fruits remain the same.

In the vegetable market, cucumbers, celery and grape fruit have about disappeared.

The prices of butter and eggs remain about the same. Two new cheeses, the pimento olive cream and the walnut cheese, are now on the market, both selling at 15c per lb.

The feature of the feed market is a rise of 5c per ton in northern Texas hay. The price of corn and chops has also risen. But the wholesale and retail price of bran have been reduced 5c.

Fruits.
Fresh figs.....20c per lb.
Currants.....15c per box
Mountain cherries.....15c per box
California peaches.....20c per lb.
Loganberries.....15c per box, 2 for 25c
Valley peaches.....10c per lb.
(Wholesale, 75c to 90c per crate.)
Raspberries.....15c per box
Cantaloupes, small.....4 for 25c
(Wholesale, \$2.25 to \$2.50 per crate.)
Watermelons.....1 1/4c per lb.
(Wholesale, 1c per lb.)
California cherries.....15c per lb.
Plums.....15c per box
(Wholesale, valley \$1.25 per crate.)
Gooseberries.....15c per lb.
Fresh pineapples.....35c each
(Wholesale, \$3 per doz.)
Strawberries.....3 boxes for 25c
Blackberries.....2 boxes for 25c
Florida pineapples.....35c each
Fresh pineapples.....35c each
Apricots.....1 lb. for 25c
(Wholesale, \$2 per crate.)
Lemons.....30c to 35c per doz.
(Wholesale, \$5.50 to \$6 per box.)
Limes.....15c per doz.
Oranges.....20c to 50c per doz.
(Wholesale, \$3.50 per box.)
Bananas.....25c to 30c per doz.
(Wholesale, 4c per lb.)

Vegetables.
Artichokes.....15c each
Green peas.....5c per lb.
Fresh Mexican wax beans.....10c per lb.
(3 for 25c.)
Mexican aguacates.....6 for 25c
(Wholesale, 4c each.)
Rhubarb.....2 lbs. for 15c
California red cabbage.....10c lb.
Parsley.....5c per bunch
Green chilis.....10c per lb.
(Wholesale, 8c per lb.)
Bell pepper.....15c per lb.
(Wholesale, 10c per lb.)
Cucumbers (fancy).....5c each
(3 for 15c.)
Squash.....5c per lb.
(Wholesale, 2c to 3c per lb.)
Onions, green.....2 bunches for 5c
(Wholesale, 25c per doz. bunches.)
Onions, white.....5c per lb.
(Wholesale, 25c per doz. bunches.)
Potatoes.....3 lbs. for 25c
(Wholesale, California, \$3.50 per cwt.; Mexican, \$3 per cwt.)
Summer squash.....5c per lb.
(Wholesale, 2c per lb.)
Tomatoes.....10c per lb.
(Wholesale, \$1 per crate.)
Turnips.....2 bunches for 5c
Watercress.....7 1/2c per bunch
Okra.....2 lbs. for 25c
(Wholesale, 90c to \$1 per 1-3 bu. box.)
Okra.....2 lbs. for 25c
New potatoes.....6 lbs. for 25c
Green beans.....10c per lb.
(Wholesale, 6c per lb.)

Fresh Nuts.
Almonds.....25c per lb.
Brazil nuts.....25c per lb.
Black walnuts.....15c lb., 2 lbs. for 25c
Chestnuts.....25c per lb.
Filberts.....25c per lb.
Pecans.....25c per lb.
English Walnuts.....25c per lb.
Roasted peanuts.....20c lb.

Butter and Eggs.
Butter, fancy grade.....25c per lb.
Eggs, Sunflower.....25c per doz.
Fresh candied eggs.....25c per doz.
Eggs, ranch.....40c per doz.

Cheese.
Pimiento cheese.....15c glass
German breakfast cheese.....5c a cake
Imperial cheese.....25 to 35c each
Holland cream cheese.....40c per 1/2 lb.
Camembert, 5c; imported.....50c per can
Cream dairy.....25c per lb.
Edam, small.....\$1.15 each
Neufchatel.....13c each, 2 for 15c
Pineapple.....45c and 75c each
Roquefort.....60c per lb.
Swiss, imported.....40c per lb.
Limburger.....25c per lb.
Sage.....35c per lb.
Circle brand.....10c each
Dutch Girl.....40c per can
Brick cheese.....25c per lb.

Fresh Fish.
Speckled trout.....17 1/2c per lb.
Various Cal. fish.....15c per lb.
Salmon.....17 1/2c per lb.

Beef.
Sirloin steak.....20c per lb.
T-bone steak.....25c per lb.
Round steak.....15c per lb.
Chuck roast.....10c per lb.
Rump roast.....15c per lb.
Rib roast.....15c per lb.
Prime rib roast.....15c per lb.
Beef liver.....10c per lb.
Corn beef.....12 1/2c lb.

Pork.
Leg.....17 1/2c per lb.
Shoulders.....10c per lb.
Chops.....17 1/2c to 20c per lb.
Breast pieces.....10c lb., 3 for 25c

Delicatessen.

CONGRESSMAN WANTS ARMY INVESTIGATED

Washington, D. C., June 30.—Congressman Julius Kahn of San Francisco, the only Republican in the house, who was a prominent actor for many years, declares that the situation demands a thorough investigation of the United States army to the end that the nation shall be given a more efficient

fighting force in return for the annual expenditure of more than \$100,000,000 to support the military establishment. Mr. Kahn has introduced a resolution for the appointment of a congressional committee of 10 members to sit at any place deemed fit and to call upon the war department for any documentary or other information desired.

OCAMPO DISTRICT MAKING GREAT PROGRESS

Operations There Not Disturbed by Insurrection Says American Mine Operator.

Mining in the Ocampo district has not been disturbed, according to J. R. Darroch, who says: "I have been down there during the past seven months. Strange to say, the mining operations there continued constantly without any hindrance during all that time, except for the little inconveniences of the shutting off of railroad communication and mail."

"The Sierra Consolidated Mining company has been steadily developing and prosecuting its improvements all this time. They are going to pull down all the old mills and erect new ones with cyanide plants of the latest pattern."

New Plant is Building.
"Work is being pushed to complete the first unit of the 60 ton section, and after that is finished, the work will continue until the entire plant of 300 tons daily capacity is completed. They are also putting up a 300 horsepower, steam-electric power plant, to be used to prosecute development work on their mines. Eventually they will install a purely electric plant, which will be driven by water power alone. They are also connecting up the underground workings of the different mining properties and equipping them with the best new machinery. They have already got the road from Temosachic to the mines in fine shape, a distance of 100 miles. The Sierra company is controlled and owned by the Cole-Ryan people. Their principal mines are the Santa Juliana, Santa Eduvigis, El Refugio, Belin and El Zora (fox) and several others adjoining."

Are Heavy Producers.
"These mines for the past quarter century have been heavy producers, shipping for years from \$50,000 to over \$100,000 in gold and silver bullion every month to the mints of Chihuahua and the United States. Greene got hold of them some years ago, but was unable to carry out the great improvements planned, and finally the Cole-Ryan people took the matter up. They have consolidated all these various holdings and claims into a single big mining claim."

Installing Machinery.
Electrical engineers are busy installing machinery and transmission lines. I met 500 pack mules going into the camp over the trail, as I came out, and this is a common occurrence in that country. General manager R. Linton, who is at the head of the operations of the Sierra company, has been in New York and will be in El Paso in a day or two on his way to the mines."

El Pasoans Operating.
"In the same camp, Krakauer, Zork & Myers, owners of the Cruz mine, one of the big properties of that district, are steadily working and developing. They are daily expecting the arrival of engineers of the English company, who have taken the property under option. "The Librada group of gold mines, of which I am principal owner, is being developed by California parties. At the time I left, very large bodies of milling ore were being blocked out. The property lies near and in the same canyon as the properties of the Sierra."

Rainy Season Opens.
"The rainy season commenced in that section earlier this year than has ever been known before, and everything looks green and beautiful. This will be a great boon, as the farmers, who are mostly retiring veterans of the insurrecto army, will now be able to raise good crops and supply the mining camps. Gen. Orozco was one of the leading farmers of the Ocampo district. In my opinion there will be the liveliest times in western Chihuahua the coming year ever seen. There will be plenty of laborers and supplies."

STRIKE IN COMET VEIN IS VALUABLE

El Rayo Property of Mines Company Is Being Developed.

The Mines company of America has made important new ore development at its El Rayo property at Santa Barbara, Chihuahua, Mexico. Exploration has recently been directed from the old workings of the company to a new vein known as the Comet.

This was first intersected from a crosscut from the upper San Jose vein and at the point of intersection of this new vein an ore shoot was disclosed which on development extended a short distance north of the intersection, and south for more than 200 feet. The face of the south or new vein on this level being still in ore. The width of the vein is five feet and the average ore value ranges from \$15 to \$20. Six hundred feet south of this development, and 350 feet lower down, another crosscut encountered the same vein. A drift is run on this vein north over 100 feet to get under the point of first intersection from the San Jose tunnel. This drift is all in ore and shows the vein from three to five feet wide averaging from \$15 to \$25.

Recently a drift has been extended on the Comet vein to the south from the ore shoot as disclosed by the crosscut from the San Jose vein and after passing through 150 feet of barren zone, this drift has encountered another ore shoot and has extended into it, about 20 feet. The ore here is five feet wide and assays from five to \$25 a ton.

The Comet vein is an entirely new vein, and the possibilities of a new deposit are apparent from the fact that the lowest crosscut from the 350 foot level is nearly 800 feet below the surface, a lower tunnel on the property known as the P-tit, and 350 feet lower than the 350 foot level crosscut will have to be extended only 300 feet to get under the new ore body. The ore carries chiefly gold and silver and is of the same character as that found in the other two veins on the property. The earnings for the first four months of 1911 were \$19,599 representing a treatment of 18,100 tons of ore. El Rayo had, January 1, 1911, a nominal reserve of 51,000 tons averaging \$16.75 a ton, total of \$859,300. The Mines company of America also owns the Dolores, Creston, Colorado and La Dura mines, all dividend paying mines in northern Mexico. The company's regular quarterly dividend of 1-2 percent is payable July 25,

Schlitz in brown bottles costs you no more than common beer in light bottles.

Light starts decay even in pure beer. Dark glass gives protection against light.

All Schlitz is aged for months in glass enameled tanks, so that it cannot cause biliousness. It will not ferment in your stomach.

If you knew what we know about beer, you would say, "Schlitz—Schlitz in Brown Bottles."

NEW KEYSTONE IS IN SHAPE FOR WORK

Tonnage the Past Year Not Increased But Work is in Good Shape.

At the annual meeting of the New Keystone Copper company, whose mines are situated near Globe, Globe county, Arizona, held in New York this week, it was shown that the past year's operations did not increase the tonnage, but put things in shape for mining the 2,000,000 tons of ore reported last June. A more thorough sampling since raises have been put in, gives an average assay value of 2 1/2 percent copper or about 6 1/2 percent less than the previous estimate. Last year's expenditures totaled \$145,923, of which \$137,517 was charged to the mine. There remained on hand at the end of the last fiscal year \$149,295. At the present time there is being expended on the property about \$3000 a month. Owing to discoveries on the adjoining Live Oak property, New Keystone has resumed churning drilling which will be carried to greater depths than heretofore.

It is estimated that between \$500,000 and \$1,000,000 worth of New Keystone stock is held by residents of Globe.

Hidden Treasure is Developed.
The Hidden Treasure claims in the Pinalos about 17 miles from Globe are being developed by a small force of men. A recent assay of the vein on the property shows values of 30 percent copper and \$7.20 gold. The owners of the claim are all residents of Globe.

WILL SINK THIRD SHAFT ON CLAIMS NEAR HUMBOLDT

Arthur A. Jones and Frank A. Davis have returned to Mesa, Ariz., from a visit to their claims near the Humboldt smelter in Yavapai county. Their group consists of the claims, all on a mineral ledge. Shafts are sunk on each of the end claims, and the center claim is now to have a working shaft from which prospect levels will be run.

The ore where the men are at work is rich enough to pay for hauling and smelting and leave a profit. The Humboldt smelter is convenient as the cost of handling the ore after it leaves the mine will be slight.

LEATHERWOOD AND GEISEMAN BONDED

Fifty Men Are Employed in Camps North of Tucson, Ariz.

Men in from the Leatherwood and Geiseman camps in the Santa Catalina mountains, about 70 miles north of Tucson, Ariz., state that both are under bond to the Copper Queen people. About 50 men are employed and \$7000 a month is being paid out. In the Leatherwood camp all development work is being done by tunnels, whereas in the Geiseman camp all work thus far done is by sinking. The company at this camp has two boilers and two air compressors in operation. No crosscutting has as yet been done. Such work is to start shortly. The first crosscut will be run from the 290 foot level, and the ore bodies will be thoroughly explored at that depth. One payment has been made on the property, and another is due in July. At camp Bonita, about 15 miles from where the Copper Queen is working, a small mill is in operation.

WILL FURNISH WATER FROM THE MOUNTAINS

Safford, Ariz., June 28.—Dave Weech, of Pima, is planning water from Cottonwood Wash into Pima, and has installed a pumping plant and will furnish drinking water for most of the town. The water comes from the Graham mountains.

Brig Reed fell from the top of an 18 foot hay shed which he was helping to build at the Anderson ranch, on the Thatcher road, and severely bruised one side, and also had one shoulder injured by a falling timber.

Mr. and Mrs. O. N. Crosswell left for Bowie, where they will make their home in the future.

Miss Lillian Freeman and Miss Annie Brier returned to Safford Wednesday and were given a welcome home party that night. They have been attending the convent at Silver City, N. M.

Miss Beulah Waddill is recovering from a mild attack of typhoid. Miss Waddill has been sick several weeks, becoming sick the day she returned from the Tempe normal.

Mrs. Lee Broshears has undergone a successful operation in Los Angeles, and is expected home in about 10 days fully recovered.

Gratz Brown, the carpenter, has lost several weeks' work on account of mild typhoid.

PACKING PRESIDENT BEFORE COMMITTEE

Edward Tilden, president of the National Packing company, who was called as a witness before the new Lorimer investigating committee of the sen-

ate, now in session in Washington, to testify as to what he knows about the relations of the "Beef Trust" to the \$100,000 "slush fund" alleged to have been collected from interests that favored sending William Lorimer to the United States senate from Illinois.
